

# URGENT POST-OP RECOVERY CENTER

Our program is supervised by Cypress Creek ER and Texans Anesthesia Physicians

We can help speed up your recovery so you are ready to return to your normal daily activities and avoid readmission to the hospital.

**LET US HELP YOU GET BETTER WITH OUR REHYDRATION PROGRAM!**

## HAVE YOU HAD SURGERY WITHIN 90 DAYS?

- Are you unable to tolerate oral intake?
- Are you having post-op intractable surgical pain?
- Are you having intractable nausea and vomiting after surgery and are dehydrated?

### Our services include:

- IV fluids to promote hydration
- IV Zofran and multiple medications to help with your nausea
- IV Toradol, IV Ketamine, and a variety of pain medications to help manage your pain
- IV post-op vitamin treatment to promote wound healing
- Transportation provided for patients who live more than 30 minutes from center

**URGENT POST-OP RECOVERY CENTER**
